

The Greatest Generation

In September it was our great pleasure to work with the Cherry Creek School District on a video for The Medal of

Honor.

Several Medal

of Honor recipients visited middle and high schools within the Cherry Creek District and shared their stories of strength, courage and valor. We were invited to be there and chronicle the interaction between students, staff and the community for a commemorative DVD for the District.

Each Medal of Honor recipient spoke about the price of freedom. And, as the flags were waving, and the National Anthem was being sung, it was amazing to witness the profound effect their life stories had on both the young and old. To watch a shorter version of the original video, visit www.cherrycreekschools.org and click on "America's Greatest Heroes Visit Cherry Creek Schools".

Dear Santa,

Christmas came a bit early to The Wildlife Experience this year...it came upon a clear October evening, and we were taping Mr. and Mr. Claus, The Elves and even Rudolph. The ads are the last piece of a Branding Campaign we worked on for The Wildlife Experience. This ad focuses on "Winter Wonderlights". An event beginning in late November complete with holiday lights, and Craft Workshops with Elves ...even the animated animals are

dressed for the weather...look for them in the ad wearing their christmas finery.

It's almost time to watch Macy's Thanksgiving Parade, tell Aunt Gert you really do enjoy her fruitcake while you're caught feeding it to Fido, and fall asleep on the couch...may we all enjoy a Happy Thanksgiving!
