

Luck o' the Irish

The coins were clanking and the winning was big as FitzGerald's Casino in Black-Hawk asked us to help them celebrate the Casino's expansion with a new thirty second commercial. We shot the commercial, in High

Definition. Colin was behind the camera; shooting and directing the eight actors and actresses we hired as on camera talent. The spot was edited in our HD editing suite, adding graphics, voiceover and music. Watch for it to hit the air soon !! After the initial run of the spot, watch for a re-edited "donut" version that will include Casino specials.

Not only did we produce the commercial for the casino, but we also shot a Video News Release of the Casino's new space, produced a radio spot, and took 35mm digital photos for print and collateral uses.....*just imagine, what we could do for your business, if we can*

make the one arm bandits at FitzGerald's Casino ring !!

Burp's, Slurp's and Glurp's...

It's the second spot we have produced this year for The WildLife Experience !! And this one is a little, well, uhhh...Gross !!! Next time you see the spot listen carefully for the *natural* body sounds that we all make !!!...it was quite fun producing this spot. It's part of the branding campaign for The WildLife Experience. And, Colin had lot's of fun searching our sound effects library for Burp's, Slurp's and Glurp's !!!

If you Build it...

Denver's 7/KMGH asked us to produce a campaign featuring 10 ninety second vignettes, and thirty and fifteen second commercials for participating Home of Distinction vendors. The vignettes were either shot at the vendors showroom, or in the multi million dollar home inside Cherry Creek Country Club. The campaign ended with two promo's being produced featuring Lois Melkonian (our on camera talent) announcing the dates of the open

house tour benefiting the PKD Foundation.

We're really hanging 10 this year !!! Thanks for helping us get here !!!
